### Pinehurst Water and Sewer Projects under Construction

Carthage, NC., At the Board of Commissioners Regular Meeting on April 6th, Moore County Public Utilities presented a status report regarding five major projects underway in the Village of Pinehurst. The projects are;

Pinehurst elevated tank: Located on Monticello Road at Blake Blvd. this 500,000 gallon tower will improve flow and pressure stability for a major portion of the Village. This new tank will be operational by November. Cost \$1,227,000

Pinehurst Wells 5a & 9: Located near Pinehurst Course number 2, these two wells will add up to 475,000 gallons per day of capacity to the system. The wells are scheduled to be fully operational this August. Remaining Cost \$225,000

Lake Pinehurst Lift Station Replacement: Five aging lift stations are being replaced using a combination of grant and 0% financing. Cost \$3,206,848

Old Town Sewer Rehab: This project upgrades and repairs about 5.5 miles of sewer lines in Old Town Pinehurst. Estimated Cost \$5,500,000

Lake Pinehurst Sewer Sliplining: This project will insert a new liner inside existing sewer lines to help prevent ground water infiltration. Estimated cost \$1,100,000
